

Alcohol & Drug Awareness Program (ADAP)

7-Hour Classroom Outline

Louisiana is at the top of the list for numbers of fatalities and injuries resulting from alcohol impaired driving crashes. This course was developed and designed as a way to reach those offenders who come to our program and are involved in one of our biggest problem areas, alcohol impaired driving, specifically by persons aged 21 to 34 years old.

This educational course has been used in our area for court ordered education purposes. The components have been selected from resources that are believed to be reliable and effective in making all driver's more knowledgeable and responsible.
